"Western hoboes," said How, who left the breakfast table this morning to talk to a reporter, "are not much on walking, because, as rough-riding as they are, the freights look good to them. Besides, it saves the feet and there's not so much dust."

However, there were a few of this rear guard who came by road. It was How and seven of his cohorts, forming the Baltimore delegation. They walked over from the Monumental city. Asked why they didn't take the more conventional way of riding freights How said: "We were alraid we might get pinched, and the conference would be delayed."

It's a Generous Grade

-Our \$2()

Generous in the variety offered-and generous in the values included. In both features we'll surprise you. We are continually trying to better our Clothing—and as ardently endeavoring to conserve the costs of production. To add to on the one hand; and take from on the other. The result is a grade of Suits this season that's surpassingly good; and surprisingly priced.

There's real reason to appreciate the facilities enjoyed through our own workrooms -and to applaud the results.

What must go to profit with others goes into better fabrics and details of making with us.

That's how our \$20 Suits have all the prestige of \$25 and \$30 creations.

With the Tartan Plaids, the Shepherd Plaids, the Greens, Blues and Browns are many conservative patterns. With the Soft Roll effects are also the staple styles—so it's a grade which offers interest to everybody capable of suiting everybody -and exceeding everybody's idea of \$20 value.

The unlined model is especially popular, for it gives the comfort of a tropical—but with more shapeliness. No weight—but lots of character and effectiveness-and wearability.
